

Screamer

Tom Helsen

Beefheart and Elvis making out
He's been going through a mental state that suits you
Just let your money flow now
It's a reliable year just let it go now
Right on and two

And James and blue'n'green
Are making my nights black
Just never to be told a screamer
Just never to be told a screamer

A screamer just never to be told
A screamer just never to be told
A screamer just never to be told
A screamer, right on and two
