

## Try A Little Tenderness

Tom Jones

In the hustle of today, we're all inclined to miss  
Those little things that mean so much, a word, a smile, a kiss  
When a woman loves a man, he's a hero in her eyes  
And a hero he can always be if he'll just realize

She may be weary, women do get weary  
Wearing the same shabby dress  
And when she's weary, try a little tenderness

You know she's waiting, just anticipating  
Things she may never possess  
While she's without them, try a little tenderness

It's not just sentimental, she has her grief and care  
And a word that's soft and gentle makes it easier to bear  
You won't regret it, women don't forget it, love is their whole  
happiness  
It's all so easy, try a little tenderness

Try a little tenderness  
Try a little tenderness

It's not just sentimental, she has her grief and care  
And a word that's soft and gentle makes it easier to bear  
You won't regret it, women don't forget it, love is their whole  
happiness  
It's all so easy, try a little tenderness
