

# How Long

Tom Morello

And how long?  
And how long?  
And how long?  
With lights and sound  
We drown them out  
With lights and sound  
We drown them out  
With lights and sound  
We drown them out  
With lights and sound  
We drown them out

From the red ropes to the masses  
We are one and the same  
Every billboard we are burning  
A delusion up in flames

And how long can we dance around  
The hungry mouths, the burning streets?  
And how long can we drown them out  
With lights and sound  
While the bombs fall at our feet?  
And how long can we drown them out  
With lights and sound  
While the bombs fall at our feet?

And how long?  
And how long?  
With lights and sound  
We drown them out  
With lights and sound  
We drown them out  
With lights and sound  
We drown them out  
With lights and sound  
We drown them out

From the red ropes to the masses  
We are one and the same  
Every billboard we are burning  
A delusion up in flames

And how long can we dance around  
The hungry mouths, the burning streets?  
And how long can we drown them out  
With lights and sound  
While the bombs fall at our feet?  
While the bombs fall at our feet  
While the bombs fall at our feet

How long?  
While the bombs fall at our feet  
While the bombs fall at our feet  
While the bombs fall at our feet
