

MORNING

Tom Rosenthal

It's nice in the morning, it's nice in the morning.
I've got butter on my bread
I've got thoughts in my head.

Its nice in the morning, it's nice in the morning
I got the sun on my toast,
I got the sun on my toast.

It's nice in the morning.
It's nice in the morning.
The Quiet is the king,
the breeze it does sing.

You're nice in the morning
You're nice in the morning
You gaze into your brew
Oh the morning was built for you.

Its nice in the morning,
Its nice in the morning
I got my butter on my face
She's got smiles on her face
We got morning all over place
