

Country Is

Tom T. Hall

Country is sittin' on the back porch listen to the whippoorwill
s late in the day
Country is mindin' your business helpin' a stranger if he comes
your way
Country is livin' in the city knowin' your people knowin' your
kind
Country is what you make it country is all in your mind

Country is workin' for a living thinkin' your own thoughts lovin'
n' your town
Country is teachin' your children find out what's right and stand
your ground
Country is a havin' the good times listen to the music singing
your part
Country is walkin' in the moonlight country is all in your heart
