

I Wish I Had A Million Friends

Tom T. Hall

I wish I had a million friends and the playground as big as the world
I wish I had a million friends some kittens some boys and some girls
I wish I had a million friends some people some puppies and cats
Some chickens some mouse and the bird
And maybe I'd like to have a big friendly rat yeah
I wish I had a million friends and the sandbox as big as the school
I wish I had a million friends and the frog that goes ribbit in the pool
I wish I had a million friends I'd like to have all different sports
One for the morning and the noon and the night
A monkey and a zebra and a big white horse oh boy
I wish I had a million friends who would listen and talk to me too
I wish I had a million friends the whole wide world and the whole big Zoo
I wish I had a million friends who were thoughtful kind and true
I wish I had a million friends and I wish they were all like you
