

## Tattoo Zero

Tomahawk

Faces down in the dirty lust  
In the testicles of the country dust  
While the workers work  
And they work and they work  
Watching them honest work  
While the hobo's jerk

Tattoo, tattoo  
Keep your rank away from me  
Tattoo  
Skin clean, watching new portrait made  
Tattoo, tattoo  
Got no bullshit memory

I give, I give money

Whiskey  
I don't need a document  
Of all the shit I've done and where I went  
To the list of the family jewels  
No reminder of the loose

Got no beautiful tattoo  
Possible to look like you  
I've never looked as cool as you  
Never looked like you

Keep your rank away from me (tattoo, tattoo, tattoo, tattoo)  
Got no bullshit memory (tattoo, tattoo, tattoo)  
Skin clean, watching new portrait made (tattoo, tattoo, tattoo,  
tattoo)  
I'm with a false, going ever astray (tattoo, tattoo)
