

# I'm Still Breathing

Toni Braxton

Did you think my life would end that day  
That you walked out when you broke my heart  
Did you think I couldn't make it through  
Ooh, without you  
Did you think you'd stop my world with goodbye, oh no  
Did you think I'd crumble inside  
Not Me, I'm still breathing  
And this heart of mine is still beating  
I, I'm not feeling any pain  
No baby, not me, I'm still breathing  
This old heart of mine is still beating  
The tears I cried have dried  
you are gone and I survived  
I'm still breathing

There were times when it took all my strength  
To just get through, yeah, through another day  
There were so many nights I thought that I was gonna die  
Without you  
But the tears I cried somehow made me strong, so strong  
Did you think I couldn't go on

Not Me, I'm still breathing  
And this heart of mine is still beating  
I, I'm not feeling any pain  
No baby, not me, I'm still breathing  
This old heart of mine is still beating  
The tears I cried have dried  
you are gone and I survived  
I'm still breathing

You tried to cut me down  
But look who's still around  
Without you  
Did you think you'd stop my world with good bye, no baby  
Did you think I'd crumble, just crumble inside

Not Me, I'm still breathing  
And this heart of mine is still beating  
I, I'm not feeling any pain  
No baby, not me, I'm still breathing  
This old heart of mine is still beating  
The tears I cried have dried  
you are gone and I survived

I'm still breathing

The tears I cried have dried  
You are gone and I survived  
I'm still breathing  
The tears I cried have dried  
You are gone and I survived  
I'm still breathing
