

Womb

Toni Childs

I'm breathing in life
I'm breathing in her
I'm breathing in the darkness
Of what it is to live
It's beautiful here

I'm breathing in life
I'm breathing in blood
I'm breathing in the liquid
Of life and holy joy
It's beautiful here

There is safety in my ears
It's wonderful to be here with you
I'm feeling safe inside you
And I'm feeling like life would inside of you

The blood and the river are the same
We are one with you here the same

Mother, can you tell me, please
Am I safe?
I decide for the world
And I decide to be born
I decide for the world
And I decide to be born
What will I think of this world?
What will I do in this world?
Will I be afraid of this world?
