

# Everywhere

## Tonight Alive

For all of the world  
I'd tell you tonight dear  
That I pray to God for you to be here  
I look for a sign, something to remind me you'll find me  
So when I'm alone I know you're beside me

Cause you're never really gone  
No, you're never really gone

I feel you everywhere  
And when it rains  
You're in the air  
Touched by the sight like a memory  
And when you're gone  
I'm in your arms  
Watch over me  
I feel you everywhere

And all I can hope  
Is that you have found peace  
While I journey on  
Your flame I will carry

Cause you're never really gone  
No, you're never really gone

I feel you everywhere  
And when it rains  
You're in the air  
Touched by the sight like a memory  
And when you're gone  
I'm in your arms  
Watch over me  
I feel you everywhere

I feel it,  
I feel you everywhere

For all of the world  
I'd tell you tonight dear  
I feel you everywhere  
I feel you everywhere  
I feel you everywhere  
I feel you everywhere

I feel you everywhere  
And when it rains  
You're in the air  
Touched by the sight like a memory  
And when you're gone  
I'm in your arms  
Watch over me  
I feel you everywhere
