

Right as the Rain

Tony Bennett

Right as the rain
That falls from above
So real, so right is our love

It came like the spring
That breaks through the snow
I can't say what it may bring
I only know, I only know

It's right to believe
Whatever gave your eyes this glow
Whatever gave my heart this song
Can't be wrong

It's right as the rain
That falls from above
And fills the world
With the bloom of our love

As rain must fall
And day must dawn
This love, this love
Can't be wrong

No, it's right as the rain
That falls from above
And fills the world
With the bloom of our love
