

# Run with the Lions

Tony Carey

go tell the people I'll be right back  
got a couple of things to break out back  
get these bozos off my back  
move on outta here

I'm gonna take it to the mountain if the mountain won't come  
kids are dropping here one by one  
let the national guard come get the job done  
why do people jeer

here's a letter from Charlie Street  
from the dawn partol with the midnight beat  
and a burned out soul in every place we meet

you've got to run with the lions  
live like a king  
play to the viper, everything  
run with the lions  
lose like a man  
run, run like a lion can  
runnin with the lions  
runnin with the lions  
runnin with the lions  
you've got to run, run like a lion can

down here they give it all up  
got a ten cent shine with a nickle's worth of luck  
tell all your children to just say no  
when the whole town's high on 40 dollar blow

here's a letter from Charlie Street  
from the dawn partol with the midnight beat  
there's a burned out soul in every place we meet

you've got to run with the lions  
live like a king  
play to the viper, everything  
run with the lions  
lose like a man  
run, run like a lion can  
runnin with the lions  
runnin with the lions  
runnin with the lions  
you've got to run, run like a lion can

you've got to run with the lions  
live like a king  
play to the viper, everything  
run with the lions  
lose like a man  
run, run like a lion can  
runnin with the lions  
runnin with the lions  
runnin with the lions  
you've got to run, run like a lion can
