

Sandy

Tony Carey

Well Sandy was waiting for me all night
It got a little bit late I got a little bit tight
Playin' for money, playin' too deep
Sandy honey didn't wait for me
We were the ones to watch, the team to beat
Stop the clock and make history
Lay it all down, tell it all out
Give this town somethin' to talk about
But

There's gotta be a better way than this
It seems a little bit hit or miss
Two people 'bout to give it all up
There's somethin' gone wrong, somethin's not enough
Sandy - hey Sandy now

(I really need you Sandy
I really want you some)
(I really need you Sandy
I really want you some)

I was a little town nothin' I guess
Sandy brought me 'round, brought me all the rest
There's a hole in my pocket a hole in my world
She took off like a rocket, like a big town girl
But

There's gotta be a better way than this
It seems a little bit hit or miss
Two people 'bout to give it all up
There's somethin' gone wrong, somethin's not enough
Sandy - hey Sandy now

(I really need you Sandy
I really want you some)
(I really need you Sandy
I really want you some)

Well I guess she never really thought it was real
She never figured it was no big deal
She don't see what she's doin' to me
She can't see me here on my knees - Sandy
