

## Kind

Tony Lucca

You could look me in the eye  
And see the invitation I've addressed to you  
And gladly I would share with you  
The beauty of my vivid point of view

To see a stranger with a smile  
Man it's been awhile but you're simply  
You feel all right by me

You peacefully pass by  
You suddenly seem high  
Need a hand I'm you man  
There's no need to ask me why

Cause if you're kind you're my kind  
All the trouble we could leave behind  
All the peace that we might find  
If you're kind you're my kind

I'm already on your side  
There's no honesty in false pride  
We could take this time and leave it all behind  
Oh brother if you kind

Brother are you kind  
Hey... hey, yeah  
Brother are you kind  
Yeah my sister are you kind  
Hey tell me are you my kind  
Tell me are you kind
