Kind

Tony Lucca

You could look me in the eye And see the invitation I've addressed to you And gladly I would share with you The beauty of my vivid point of view

To see a stranger with a smile Man it's been awhile but you're simply You feel all right by me

You peacefully pass by You suddenly seem high Need a hand I'm you man There's no need to ask me why

Cause if you're kind you're my kind All the trouble we could leave behind All the peace that we might find If you're kind you're my kind

I'm already on your side There's no honesty in false pride We could take this time and leave it all behind Oh brother if you kind

Brother are you kind Hey… hey, yeah Brother are you kind Yeah my sister are you kind Hey tell me are you my kind Tell me are you kind
