

# Chasing Highs

## Too Close To Touch

I don't like it  
We were working on a perfect night  
Don't think I can fight it  
Cause I know I'll never change your mind

Cut the talk I'm bored  
Can we take some more  
With a little bit of apathy  
Yeah the shame is more  
Than I can take I swore  
I didn't need your sympathy

Didn't want it, no  
Now I need it, yeah

Oh I've been here before  
When everything I loved walked out the door  
Oh I need more tonight  
Just to feel alive  
So I go chasing highs  
I keep chasing, keep chasing highs  
Go chasing highs  
I keep chasing, keep chasing highs

Throw my head back  
Another drink to chase the pain  
Outside your door, yeah  
I can't remember what I had to say

Cause when it rains it pours  
And maybe I adore  
A little bit of apathy  
Yeah the shame is more  
Than I can take I swore  
I didn't need your sympathy

Didn't want it, no  
Now I need it, yeah

Oh I've been here before  
When everything I loved walked out the door  
Oh I need more tonight  
Just to feel alive  
So I go chasing highs  
I keep chasing, keep chasing highs  
Go chasing highs  
I keep chasing, keep chasing highs

Till the love runs dry  
Till we say goodbye  
We got one more night  
To keep, keep chasing  
Till the love runs dry  
Till we say goodbye  
We got one more night  
To keep, keep chasing

Keep chasing

Oh I've been here before  
When everything I loved walked out the door  
Oh I need more tonight  
Just to feel alive  
So I go chasing highs  
I keep chasing, keep chasing highs  
Go chasing highs  
I keep chasing, keep chasing highs  
Go chasing highs  
I keep chasing, keep chasing highs  
Go chasing highs  
I keep chasing, keep chasing highs
