

You Make Me Feel The Way I Do

Toots and The Maytals

You say that you love me
You say that you love me so
You say there will be no other love but me
I will love you 'til eternity
'Cause you make me feel the way, the way I do
Do you remember that first time we met?
When you kissed me and said how much you cared
How can I forget that first time we met
'Cause you make me feel the way, the way I do
