Toro y Moi

I wonder if I should do something I care about
[?] it's something that I think is right for me
And I wonder if it's something I want to do forever
What happens when, it's time to go?
I guess we'll never know
I'll take care of it when I can

Fashion over function, man this thing got a moon-roof
Fancy buttons too, what does this one do, ooh
Who you think you are, what you think you do (yeah)
Time is woven into me, woven into you
Tie dye everything, maybe I'll seal it smooth
Rock and roll the earth, break a fucking tooth
