

## Grown Up Calls

Toro y Moi

I'm alright, out here with you  
It doesn't bother me, I know you think it does  
It's us making grown up calls  
You got more than my love

You only talk  
You won't bite  
I can't kiss her, so I  
I move over, it's not enough  
It's what I want, to me it's fine  
But I know, I keep it to myself  
I don't want to have it all  
I'm on the phone, like everything  
You see me too, it's not my fault  
It's not so common for it to turn out wrong

I'll always be by you  
I know what you're thinking  
I miss you

I know it's hard to be alone  
You gotta stay while I'm gone  
I'm in a different state, another job  
I didn't call, I'm so far  
It's not so common for it to turn out wrong

I'll always be by you  
I know what you're thinking  
I miss you
