

High Living

Toro y Moi

You and me
Can be what we want to be
Don't you like
This come falling down on me

I can hold it in my arms,
and I don't expect anything in return
We'll be getting high, cruising
We'll be living high, living
We'll be getting up when we're down
and the big one's coming

We'll be living high
You'll be living low
I can't give it either way
I don't think I know

I don't care at all
You can take me now
You can take me then
Doesn't matter if I fall

She'll be living high
She'll be living low
She can live it either way
I don't think she knows

She don't care at all
You can take her now
You can take her then
Doesn't matter if she falls

She'll be living low, low, low
We'll be living low, low, low
We'll be living high
We'll be living high
