

My Touch

Toro y Moi

I'll stop talking to myself
Doesn't matter if that helps
It's a difference when I'm there
In front of you

Balance my stance just in case
I will fall into my place
It's a difference when I'm there
In front of you

So you push me with your hands to wake me up
So you push me with your hands to wake me up
So you push me with your hands to wake me up

I'll stop talking to myself
Doesn't matter if that helps
It's a difference when I'm there
In front of you

Balance my stance just in case
I will fall into my place
So you push me with your hands to wake me up
