

Say That

Toro y Moi

Tell me you want that, I give up
She owes my love, and I've got her now.
She's alright, I'm alright
We're alright, we can't go back

Say that you'll always remind me
Cause I can't decide if you are my love
I know I can always be home but
I never left, don't think like that!

Tell me you want that, I give up
She owes my love, and I've got her now.
She's alright, I'm alright
We're alright, we can't go back

Say that you'll always remind me,
Cause I can't decide, if you are my love,
I know I can always be home but
I never left, don't think like that!

She's alright, I'm alright
we're alright, we can't go back.
She's alright, I'm alright
we're alright, we can't go back.

Say that you'll always remind me,
Cause I can't decide, if you are my love,
I know I can always be home but
I never left, don't think like that!

She's alright, I'm alright
we're alright, we can't go back. x3
