

When can we get together again?
Nevermind, I've lost you

How can I tell if I love you anymore
Nevermind, I know I do

Call you closer to my arms
You'll feel better when you're warm

Do you like it when you leave your house?
Do you like it when you're in a town?
That you love
Like one I live in
Like one I live in

It's my body's plan

I feel another
Timer
Will my love
Slow down

It's my body's plan

Make another telephone call
Think of you and me
