

You and I

Toro y Moi

In the desert, you came into my mind
Mother Nature, you gave me a lifetime
I thought twenty-nine was an easy one to get through
Just to summarize, I don't think we're done with all the issues
I don't think it's me, I don't think it's you
It's the universe
I can feel a change coming over us and it's gonna hurt
Oh, my god, it took a while
Oh, my god, it took too long for me to find out if
I really am for us, all this

I think you and I just weren't thinkin' right
It's so wild, everybody went and changed overnight
Overnight, overnight

Left me all to pieces, she got me fallin' out of love
I been workin' weekends, I can't tell the difference if I'm alive
I'm just a satellite, I've been zonin' out
This music's way too loud
There's only really one reason I know what to feel
Is that I know this way is more than real
So we might as well be falling while holdin' on
So we might as well be falling while holdin' on
