

Best of You // Busted (Skit)

Tory Lanez

I chop trees in a wrap and get high
We go back like 4 flats on the ride
Put the D's on the 'lac when I slide
Baby ooh you got time for a youngin' like me 'cause I
Flex, amiri jeans, white tee and I
Know in the back of mind
I'm way too wavy for you not to cosign
Wait, I got options on the phone and
Wait, you done caught me all alone and playing games
Ain't my style, and you could end up driving me wild

(Lips are tellin' me yes) Me yes
(While you're kissin' on my neck) My neck
(Should I stay) Should I stay
(Should I go) Should I go

(Lips are tellin' me yes) Me yes
(While you're kissin' on my neck) My neck
(Should I stay) Should I stay
(Should I go) Should I go

I get twisted like a rolled j'
We could leave here, loving my taste
If you get caught up in the flame
Just don't be acting crazy
I won't give or get emotions when I go in
And I throw it back I don't hold back
And I'm just saying We stay in the moment for too long
Feelings be taking over way too strong
Ooh if I hit it one time
If I get it twice fuck around and change your life

(Lips are tellin' me yes) Me yes
(While you're kissin' on my neck) My neck
(Should I stay) Should I stay
(Should I go) Should I go

(Lips are tellin' me yes) Me yes
(While you're kissin' on my neck) My neck
(Should I stay) Should I stay
(Should I go) Should I go
