

My Little One

Toše Proeski

When day time still remains to get away,
In my dreams I pray.
One more time to see your face again,
That I will follow way.
Just one more time to see your eyes,
Then you can go down to sleep.
Just once to hold you,
That I will follow way.
You said: my little one don't you cry,
There was no time for me to say goodbye.
A force beyond my choice was calling me,
It was my destiny.
So many things more I need to do,
Then if it looks like it's stealing me from you
You got it always deep down in your heart,
That we will never be apart.
Memories are always here to stay,
You gonna be holding on,
You gotta be strong,
That I will follow way.
Just one more time to see your eyes,
And I leave go down to sleep.
You are too young,
That I will follow way.
I'll dry these tears, chase these fears this road you
need to take.
And angels are showing you the way.
You wake up now in another world,
But the promise you won't break.
You'll be watching me every step I take.
You said: my little one don't you cry,
There was no time for me to say goodbye.
A force beyond my choice was calling me,
It was my destiny.
So many things more I need to do,
Then if it looks like it's stealing me from you.
You got it always deep down in your heart,
That we will never be apart.
