

Let the Wild Just Be Wild

Tourniquet

Let the wild just be wild
Let the wild just be wild

From Asian lands to Africa
From America to Antarctica
We invade their habitat
Leaving nowhere for them to go
We hunt them, we exterminate them
Why can't we just let them be?

Do not tame what is meant to be wild
And do not confine
what is meant to be free
Why do we kill
what is meant to have life

They're not here just for us

Let the wild just be wild
Leave their land undefiled
Give them space in their places

Let the wild just be wild
Let the wild just be wild
