

# So I Got to Groove

Tower of Power

I got to groove!

I put down the spoon,  
And picked up the fork.  
I went and got a gun felt like Sergeant York.  
I put down the ice,  
And pick up the dice.  
No matter what the payback  
You got to pay the price.  
I've been around the world,  
With my eyes on the screen.  
I've paid lots of money to be hip at the seam.  
I've been to the moon  
With my feet on the ground.  
And now I'm so tired of lying around.

I've been here and there,  
I looked everywhere.  
I searched high and low,  
Now there's no place to go.

So I got to groove.  
The kind of groove that makes you move.  
I've got to groove.

I've been to the rodeo,  
But I fell off the horse.  
I've cried me a river  
But I couldn't find the source.  
I've been to the stow,  
To get with the flow.  
If I'm going so fast  
How come I'm moving so slow?  
I dropped the rock,  
And I picked up the phone.  
I cried out for help cause I felt so alone.  
I was ready to surrender  
But claimed victory.  
Still I don't know what was wrong with me.

I've been here and there,  
I looked everywhere.  
I searched high and low,  
Now there's no place to go.

So I got to groove.  
The kind of groove that makes you move.  
I've got to groove.

(All the things that use to fix me) They don't fix me  
like the groove.  
(All the things that use to fix me) I wish you all knew  
what we was talking about.  
(All the things that use to fix me) No they just don't  
do it.  
(All the things that use to fix me) I wouldn't lie to  
ya, they don't fix me no more.

Break down!

I've got to groove.  
Tell them what you gotta do.  
I've got to groove.  
Tell them what you gotta do.

(All the things that use to fix me) No they just don't  
do it.

(All the things that use to fix me) I wouldn't lie to  
ya, they don't fix like the groove.

(All the things that use to fix me) Tell them why you  
wrote this song!

(All the things that use to fix me) No they just don't  
do it.

(All the things that use to fix me) I wouldn't lie to  
ya, they don't fix me no more.

I've been here and there,  
I looked everywhere.  
I searched high and low,  
Now there's no place to go.

So I got to groove.  
The kind of groove that makes you move.  
I've got to groove.
