

# A.T.O.M.I.C.

## Toxic Holocaust

You feel the Earth below cracking, begins to crack  
Radiation leaking  
City's future dimmed to black

Atomic power  
Atomic disaster

We've got technology that we don't understand  
The consequences are getting out of hand  
We've got the fire power and energy  
It may be deadly but we crave the power

Aftershocks split the ground and waters start to rise  
Death surrounds you  
How many more will die?

Atomic power  
Nuclear disaster

A.T.O.M.I.C.  
Victims of technology

We harness power that we don't understand  
The consequences are getting out of hand  
We've got the fire power and energy  
It may be deadly but we crave the power
