

# Chemical Warlords

## Toxic Holocaust

It hits like a storm in the base of my spine  
Cerebral mutations  
Ascension achieved with atomic machines  
Seeking injustice

You build it up, we'll tear it down  
Our mission is clear  
You build it up, we'll tear it down  
Setting the pace, we're hellbent to devastate

Armed and ready, we're lusting to kill  
Level the city, just for the thrill  
We are the plague that you've been warned about  
Mass hysteria, we will find you out

Like chemical warlords (x2)

Bombing our way through the bounds they have set  
Like splitting an atom  
Watch it all wash away  
Hallucinating the perfect future

You build it up, we'll tear it down  
Our mission is clear  
You build it up, we'll tear it down  
Setting the pace, we're hellbent to devastate

Armed and ready, we're lusting to kill  
Level the city, just for the thrill  
We are the plague that you've been warned about  
Mass hysteria

We are breaking out free from our cage  
As the thought lives on in our minds  
Relive the pain, the pain of rebirth  
Release the shackles

Feel the heat as it rushes right through  
Like a force from out of the sky  
One taste is all it will take  
Just one, to open your mind

Refueled and ready, we're suited to kill  
To take back our freedom  
You know what this is, demand and supply  
Microdosing the poison

You build it up, we'll tear it down  
Our mission is clear  
(You build it up) You build it up, we'll tear it down  
I'm telling you all, "It's my world and my rules"

Armed and ready, we're lusting to kill  
Level the city, just for the thrill  
We are the plague that you've been warned about  
Mass hysteria, we will find you out
