

Future Shock

Toxic Holocaust

Turning out of a violent mind
Tearing out of a violent mind
It's these evil ways that will change our times
Militance to opposing thought
Weapons breaking through to change our times

It's gonna bring us down into the fire
It's gonna take us down, the future's ripping out
into the fire
It's a future shock!

Dominate through an iron fist
Can't ya clearly see that this world is lost
Fear controls, consuming everyone
Don't put your total fate in the one you're told to trust

Lies are coming out and now the fires
The fire's ripping through
