## Toxic Holocaust

Prophets falsely claim the gift, the eye that sees it all  
Harsh reality is crashing before you  
Spreading the panic all hope has been lost  
They feel what we stand for - fear all our strength

### An International Conspiracy

Give away another right to ease your sleep at night  
We come closer each day to a prison  
You make a chance but the outcome's the same  
It's time to wake up - this is your warning

Privacy stripped away it's time to act today  
For the cowards who won't stand behind us  
Panic is leading to social unrest  
They're hiding their motive - total slavery
