

## Out of the Fire

### Toxic Holocaust

We've got the power  
We've got the fire that won't ever go out  
Strength built in numbers  
We're not under control

Out of the fire  
We bring the strength  
Out of the fire  
We bring the strength to fight

We've entered the lair  
Inside our minds they've put us to sleep  
Stand up for freedom, stand up for your rights  
Stand up for what they control

We are losing our identity  
As the walls are closing in  
Approaching the hour  
When our inner mind awakes

Signal our demise  
Invasion of the mind  
Signal our demise

Fighting for security  
All hope has been lost  
It's a sign of the coming times  
And we need to take it back
