

# The Lord Of The Wasteland

## Toxic Holocaust

We've got the flame burnin' in our hands  
We've got the atom's power at our command

Put a gun to your head  
One pull you're dead  
Out here we live and die by death

We've got the ultra-violent force  
Take what we need without recourse

Overtake, overtake it all, The lord of the wasteland strikes

Still got the flame burnin' in our hands  
Got an atom's power at our command
