

We Bring 'Em Hell

Toxic Holocaust

We are the Speed metal punks
We party in hell
Thrashing in Hades
With Satan Himself
Summon the reaper
With his tourniquet
Pissing on Jesus
and on the dead

We bring em hell
We bring em hell
We bring em hell

We're gonna puke on the sluts
and rage through the night
We'll bulldoze your houses
and fuck all your wives
With fires still burning
Deep down inside
Whiskey our poison
What keeps us alive

We bring em hell
Metal gets out of control
We bring em hell
We're Satan and god rock n roll
We bring em hell
Thrash out of their heads
We bring em hell

Stalking the streets
Looking for a fight
Toxic fucking legions will crush you in despite
The kids have ???
Well smash your holy light
Our lust for death grows tonight
Mutts on a leash
Violence will assume
Tearing out the entrails from the virgins rotten womb
We drink the blood of the ?
We howl at the moon
Your death for us will come so soon
