

# Cancel the Dreams

Toxique

I saw you through my glasses  
And as a silly kid I thought  
I didn't know you  
But now I know I did

I thought you had more feelings  
Than you have ever told  
I thought I couldn't warm you  
But now I know you're cold

I didn't use my real eyes  
Cause I was in the fog  
I thought the prince was in you  
But you were just the frog

Let us cancel all dreams  
Cancel all dreams  
Cancel all dreams  
It is just like it seems  
Just like it seems  
Just like it seems

It had to get much better  
It didn't change a bit  
I thought I didn't know you  
But now I know I did

Pretended not to notice  
That time was passing by  
I thought that I was smiling  
But now I know I cried

You wonder why this moment  
Is the right time to split  
I thought I didn't know you  
And now I know I did

Let us cancel all dreams  
Cancel all dreams  
Cancel all dreams  
It is just like it seems  
Just like it seems  
Just like it seems
