

## Remember

Toxique

Do you remember our walks outside  
Walkin hand in hand that's on my mind  
Now we're not together do you think it's right  
I don't know what's better my mind is not bright

Standin' out in the snow  
I felt that glow  
Stars were shining in the sky I know  
But now I don't feel so wonderful  
How I miss you so

Do you remember us talkin' at school  
I was so nervous I felt like a fool  
Memories still returning to my head  
You were the only one turning me red

Standin' out in the snow  
I felt that glow  
Stars were shining in the sky I know  
But now I don't feel so wonderful  
How I miss you so

Do you remember our first kissin' in the park  
It was a Tuesday, right after dark  
Now it's so hard to find that reason  
Why we broke up that winter season

Joking, smiling, kissing, smoking  
Talking, moaning, sharing our feelings

I miss that joking  
I miss that talking  
I miss that moaning  
Oh, I miss you so
