

Two Sides

Toxique

I don't really like that soul track
I want my boyfriend to be so sad
I want that spot light to be shining on me
it's like that and don't talk about this

Don't wanna be so wrong to be like I said to be so bad
Don't wanna be so wrong to be like I said to be so mad

Don't wanna care about my baby
Sitting in a chair oh I'm so lazy
Oh, I didn't tell you that I hate you
it's like that and don't talk about this

I love my sweet and cute dress, yeah I do
Since I lost my doll I've been playing with you
Bring me strawberries and champagne to my bad
I like that and don't talk about this

(chorus)

Come on everybody
Clap your hands and move your body

Do you know what live's got
You'll be one of us
Taking care of your soul
You can be one of us
If you feel better
Take this chance
Do you know what live's got
You'll be one of us

(chorus)

Don't wanna be wrong I just had a strange day
And I'm telling you sorry for the game which I play
Now I know it was hit below the belt
I need your help you have to find out how I felt

Don't wanna be so wrong
