

No longer way to the end of a day
The night is over but you can stay
I walked alone you weren't here
Hey boy stay with me cause...

I wanna hear some light hearted jokes
Spend a while with you
No beer no wine no coke
Just shoot the breeze and feel so fine
What you call yours
In that moment will be mine

Now when your time is also my time
There is no mountain
We'll not be able to climb
That's the way I just find
Want to stay, now I'm not blind and...
I wanna hear some light hearted jokes
Spend a while with you
No beer no wine no coke
Just shoot the breeze and feel so fine
What you call yours
In that moment will be mine
