Toyah

Temptation

Motivation

Hesitation

Trepidation

And we're walking on broken diamonds

Blinded by their light

In a world of splintered fragments

Careering through our lives

Fascination

Sensations

Destinations

Celebrations

Infatuations

And we're walking on broken diamonds

Blinded by their light

In a world of splintered fragments

Careering through our lives

And we're walking on broken diamonds

Blinded by their light

In a world of splintered fragments

Careering through our lives

No it ain't easy

And I know that you really try

Although nothing can save us

Our love is a star in the sky

We're picking up the pieces  
We're picking up the pieces  
All the little pieces  
I've got you and you've got me  
I've got you and you've got me  
You've got me, you've got me  
You've got me, you've got me  
Begging on my knees  
Fascination  
Temptation  
Just imagination  
Or infatuation  
Infatuation  
We're walking on broken diamonds  
Blinded by their light  
In a world of splintered fragments  
Careering through our lives
