

# Revive The World

Toyah

(Trouble in the engine room)

Take a look at the tree through the window  
(Spaceship home)

When it moves, it moves me too  
(Maintenance is overworked)

When I breathe, I feel it's leaves  
Leaving me to tingle in the cold sun  
(Air-conditioning tampered with)

In the dawn of a starless night  
I recharge with light and revive the world.

(Can you hear me)

I love her so  
I will never never let her go  
(Astronaut's report)

In the dawn of a starless night  
I recharge with light and revive the world.

Ah-ah-ah-ah  
Revive...

I will always be there in support of Earth  
(Those among us)  
Will we stop this crying, pushing, shoving, dying  
(Pull together)  
When you move, you move me too  
(To serve a purpose)  
Rest assured  
Those among us will never let her go

In the dawn of a starless night  
I recharge with light and revive the world.

(Trouble in the engine room)

She's silently turning  
Waiting in timeless space  
(Spaceship home)

In the dawn of a starless night  
I recharge with light and revive the world.
