

Gonna Make You Miss Me

Trace Adkins

Girl, tonight ain't just another night
Wanna turn the stars up all the way to bright
Tonight you gotta give me one more try
I'm gonna change your goodbye tonight

I'm gonna make a memory
It's gonna make you miss me
Won't be able to get me outta your head
Like one of those catchy little sing along songs
You're gonna need me
You're gonna wanna meet me
At the bottom of the stairs at 2AM
'Cause you're gonna wanna kiss me again
I'm gonna make a memory
It's gonna make you miss me tonight

If you think you've been swept off your feet
Or ever heard the sound of your heartbeat
You'll see you never felt nothing like this before
And when you show up at my door

I'm gonna make a memory
It's gonna make you miss me
Won't be able to get me outta your head
Like one of those catchy little sing along songs
You're gonna need me
You're gonna wanna meet me
At the bottom of the stairs at 2AM
'Cause you're gonna wanna kiss me again
I'm gonna make a memory
It's gonna make you miss me tonight

Tonight, tonight
Girl, we'll remember
Tonight, tonight, tonight
Tonight forever

I'm gonna make a memory
It's gonna make you miss me
Won't be able to get me outta your head
Like one of those catchy little sing along songs
You're gonna need me
You're gonna wanna meet me
At the bottom of the stairs at 2AM
'Cause you're gonna wanna kiss me again
I'm gonna make a memory
It's gonna make you miss me tonight

Tonight, tonight
I'm gonna make a memory
I'm gonna make you miss me
Tonight, tonight, tonight
