

# I'm Tryin'

Trace Adkins

This gettin up early, pulling double shifts,  
Gonna make an old man of me long before I ever get rich.  
But I'm tryin  
It's been two years since we've finalized,  
I still ain't used to puttin ex in front of wife.  
But I'm tryin.  
Send more money right away, is pretty much all she has to say w  
hen she  
Calls these days and don't you be late

But all I can do, is all I can do and I keep on tryin  
And all I can be is all I can be and I keep on tryin  
There's always a mountain in front of me,  
Seems I'm always climbin and fallin and climbin  
But I keep on tryin

I remember daddy sayin keep your eye on the ball, run like hell  
, play to win,  
Get up when you fall  
I'm tryin  
Don't say nothin that you can't take back  
Never do anything you might regret  
No don't do that  
Daddy I'm tryin  
Know the difference between heaven and hell  
Go easy on the bottle be hard on yourself  
And I know he meant well

But all I can do, is all I can do and I keep on tryin  
And all I can be is all I can be and I keep on tryin  
There's always a mountain in front of me,  
Seems I'm always climbin and fallin and climbin  
But I keep on tryin

There's always a mountain in front of me  
Seems I'm always climbin and stumblin  
And then fallin'  
And then climbin'  
But I keep on tryin'

This gettin up early pullin double shifts  
Gonna make an old man of me  
Long before I ever get rich  
But I'm tryin'
