You Caught Me Out

Tracey Ullman

Just dropped in, I was dropping past
You know I missed you since I saw you last
It gets lonely, since you haven't been around
Little things don't make me cry but still I think you could've
told me why you had to move out to the other side of town

You caught me out
You caught me out
But when I saw you (Saw you) walking out the door
You know I just couldn't take anymore
I started cryin'

Every night I lie awake, afraid what shape my dreams might take
I call your name out but I never hear a sound
You can say there's no love lost but now I sit down and I count
 the cost
I wasn't ready to surrender what I found

You caught me out
You caught me out
But when I saw you (Saw you) walking out the door
You know I just couldn't take anymore
I started cryin'

Doesn't seem there's any way to say the things I wanna say
It's too late for me to explain, I love you

You caught me out
You caught me out
But when I saw you (Saw you) walking out the door
You know I just couldn't take anymore
I started cryin'

You caught me out
(I started cryin', cryin') You caught me out (You caught me out
)
(I started cryin', cryin') You caught me out (You caught me out
)
(I started cryin', cryin') You caught me out (You caught me out
)
(I started cryin', cryin') You caught me out (You caught me out
)
(I started cryin', cryin') You caught me out (You caught me out
)
