

# Every Breath

Tracy Bonham

I see you runnin and it's all over now  
The devil's comin and he's showin us how  
He's goin down on the street light  
It's such a cool sight  
The lizard king is here and where are you now?  
The monkey brain is here he's showing us how  
He's goin down on the cool right  
And I am loosing sight..and...  
Every breath is like the one before  
Yeah it's like the one before  
You get it right you breathe no more  
Sold my shadow on the blackest of nights  
Sometimes it pushed me right out of the light  
It's going down on the cool right and I am losing  
Your're here to tempt me and it's all I can do  
To keep from running just to try something new  
I'm goin down on the cool ride and i am right behind...and..  
Every breath is like the one before  
Yeah it's like the one before  
You get it right you breathe no more  
No more  
No more  
Every breath is like the one before  
Yeah it's like the one before  
You get it right you breathe no more  
Every breath is like the one before  
Yeah it's like the one before  
You bank on it you breathe no more  
No more
