

Give Us Something To Feel

Tracy Bonham

We live and by the Dust Devil's sanction
We live here by the Dust Devil's family
Waiting for him, we're all waiting for him

Come to our emotional vacuum
Come to our emotional vacuum
Then leave us high, then leave us high and dry
Give us something to feel

I fell far from the tree of knowledge
I fell far from the tree of knowing
What to feel, do you know what we feel?

Come to our emotional vacuum
Come to our emotional vacuum
Then leave us high, then leave us high and dry
Give us something to feel
