## **Shanghai Noodle Factory**

In a Shanghai Noodle Factr'y Place where I once used to be No where doing nothing People there were made of steel Tiny cogs in one big wheel Turning never learning

Had to make a break And soon I had to wake up feeling stronger, feeling stronger In my island of dreams, with impossible schemes

In a Shanghai Noodle Factr'y

Place where I once used to be No where doing nothing People there were made of cans Packed like roosters in a pen Crowing, never knowing

Had to make a break I knew I couldn't fake it any longer Everything just aches Soon I'd have to wake up feeling stronger, feeling stronger In my island of dreams, with impossible schemes
