

# Loneliness Burns

Transit

You told me you had a beautiful voice  
But you only sing to yourself  
I believed you  
I've been singing about you for years now  
It all will even out  
You will never hear the truth  
It's not fair

Loneliness burns  
I never thought I'd say how I miss November  
Loneliness burns  
I miss the broken life that we built together  
Loneliness burns  
I miss the scraping sounds of your windshield wipers  
Keeping time as you drank away the drive

I told you, you had a beautiful face  
But don't expect that to save you  
Just for that, just for existing  
Don't expect time to ever fix you  
And it all will even out  
Someday you'll see the truth  
It's not fair  
Life's not fair

Loneliness burns  
I never thought I'd say how I miss November  
Loneliness burns  
I miss the broken life that we built together  
Loneliness burns  
I miss the scraping sounds of your windshield wipers  
Keeping time as you drank away the drive

Don't drink away the drive  
Nothing kills you faster  
Release me from this life  
The one we built together

Loneliness burns  
I never thought I'd say how I miss November  
Loneliness burns  
I miss the broken life that we built together  
Loneliness burns  
I miss the scraping sounds of your windshield wipers  
Keeping time as you drank away the drive

Don't drink away the drive  
Nothing kills you faster  
Release me from this life  
The one we built together
