

## Tall Cans in the Air

### Transplants

Take a look around baby  
You know my whole crews ulgy  
But we still got the most game,  
The most money  
The most hoes, the most hunnies  
It's so funny how you hate my fucking guts  
But in the same time love me  
From the leakage in the gold to low rider by  
You always say you hate it  
But I know that you lie  
What you see is what you get  
Nothing more, nothing less  
I'm chillin smoking chronic  
While you're choking on stress  
tall cans in the air  
Let me see em (fuck you)  
Tall cans in the air  
Let me see em (fuck you)  
I see you're mad at the fact that my pockets stay fat  
It's the cash I made the whack on the cocaine sacks  
It's the craw foam rich or the one that you lack  
I wish you would come around, I'd lay you flat on your back  
You better hope you fucking miss me if you see me drinking whiskey  
You know me and diablo get way passed tipsy  
When the drunk's highly sober  
I'm still getting over  
It's passed three am and the tokes with the joker  
tall cans in the air  
Let me see em (fuck you)  
Tall cans in the air  
Let me see em (fuck you)  
I never sing another  
I only shout  
Coming clean forever  
Without a doubt  
I got machine gun trigger  
You better watch out  
Yeah, transplants don't give a fuck  
That's where we're at  
So, here we come with the original style  
I said who the fuck are you  
I've been here for a while  
You got a be and mental flyers  
And runnin in my set (???)  
Transplants are fearless  
And the most original  
tall cans in the air  
Let me see em (fuck you)  
Tall cans in the air  
Let me see em (fuck you)  
tall cans in the air  
Let me see em (fuck you)  
Tall cans in the air  
Let me see em (fuck you)  
you think I give a fuck  
Well you better think twice  
US thugs, wolfpack

And I ain't nothing nice  
Check the 30 time  
Lyrically committing hate crimes  
News from the corner, my mic  
Now it's hang time  
Throw my minds with rhymes  
Designs will break spins  
Transplants coming through  
And we're one of a kind  
With the chrome, take a dope  
Make you flip like a flapjack  
Two tall cans and a packet of blackjack  
tall cans in the air  
Let me see em (fuck you)  
Tall cans in the air  
Let me see em (fuck you)
