

Down On You

Transvision Vamp

You give me everything
Everything I don't need
You give me everything
Oh that ain't for me
And when I'm feeling high
You bring me down
And when you're coming by
That's when I leave town
I'm down on you
And I ain't got a care
I'm down but I'm not blue
Just down on you
Like all the dead-end pricks
You get your critical kicks
With anything that sticks
But you just leave me sick
And every empty can I see
In the gutter of a dead-end street
And everything that just ain't true
Reminds me of you
I'm down on you
And I ain't got a care
I'm down but I'm not blue
Just down on you
Down on you
Down on you
Down on you
Oh I'm down on you
I listened to my heart
It tells me the truth
And this is what it said...
I'm down on you
And I ain't got a care
I'm down on you
I'm down on you
I'm down on you
I'm down on you
